Mr. Roger F. Stanley, Director
Tri-Party Agreement Implementation
State of Washington
Department of Ecology
P.O. Box 47600
Olympia, Washington 98504-7600

Dear Messrs. Sherwood and Stanley:

SUBMITTAL OF THE RESOURCE CONSERVATION AND RECOVERY ACT FACILITY
INVESTIGATION/CORRECTIVE MEASURES STUDY (RFI/CMS) WORK PLAN FOR THE 100-DR-2
OPERABLE UNIT (OU) DRAFT A, FOR REVIEW

The U.S. Department of Energy, Richland Operations Office (RL) is submitting the subject document (enclosure 1) to the State of Washington Department of Ecology (Ecology) and the U.S. Environmental Protection Agency (EPA) for review to complete the Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement) milestone M-13-05.

Please note that the 100-DR-2 OU RFI/CMS Work Plan references generic sections of text common to nine approved 100 Area OU RFI/CMS work plans. Review of the subject work plan will require frequent reference to the 100-DR-1 OU RFI/Feasibility Study Work Plan, approved by Ecology on October 21, 1992. This approach was discussed with the regulators and agreed to by all involved parties as documented in the 100 Area National Priorities List Agreement/Change Control Form #48 (enclosure 2).

Although not explicitly displayed on the RFI/CMS task schedule in the work plan, RL is prepared to discuss placement of the Tri-Party Agreement interim milestones on scheduled tasks. It is RL's expectation that once the work scope for 100-DR-2 RFI/CMS tasks are finalized with Ecology and EPA, new interim milestones will be consistent with those placed on the nine previously approved 100 Area OU work plans. It is RL's preference to discuss treatability study objectives and task proposals concurrent with efforts to resolve Ecology and EPA comments on the subject work plan.

94-ERB-010

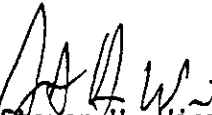

Messrs. Sherwood and Stanley
94-ERB-010
